

# Keep your aircrafts clean with BIOPROTECT™

## *The BIOPROTECTUs™ System for Aircrafts*

### **Aircrafts are Dirtier than you Think**

Aircrafts are breeding grounds for germs, everything from tray tables to the seat belt buckles are full of germs and microbes. Prevention is the best treatment, that's why adopting the BIOPROTECTUs™ System can help protect your passengers, your crew members, your reputation and your aircraft investment.

### **What is the BIOPROTECTUs™ system?**

The BIOPROTECTUs™ system includes an array of patented, EPA registered technologies to modify surfaces, providing such surfaces with disinfection and durable long term antimicrobial protection that kills and inhibits the growth of problematic bacteria, fungi, algae, protozoans, viruses and other microorganisms that can exist in many of life's surfaces. In addition, the BIOPROTECTUs™ System offers hand and skin purifiers, laundry treatments and air purifying filters.

### **Where can the BIOPROTECTUs™ system be used?**

The BIOPROTECTUs™ system can be used on a full range of surfaces within an aircraft's interior environment to render them cleaner, safer and healthier, enabling airlines to more confidently control contamination without negatively affecting people, the environment and the areas that have been treated

***Did You Know: tray tables are the dirtiest surface within an aircraft with 2,155 CFU/sq (Travel Math study)***

### **How are the BIOPROTECTUs™ system of products applied?**

The BIOPROTECTUs™ system of products are applied by simply fogging or misting using an electrostatic or ULV sprayer. No wipe or rinse required. Simply fog or spray and allow to dry.

***Adopting the BIOPROTECTUs™ system for your aircrafts will set you apart as the industry leader in air transportation hygiene!***
