

Keep your luxury vehicles clean with BIOPROTECT™

The BIOPROTECTUs™ System for Luxury Multi-Passenger Vehicles

Vehicles are Dirtier than you Think

Vehicles are breeding grounds for germs, everything from seat belt buckles to door handles to arm rests are full of germs and microbes. Prevention is the best treatment, that's why adopting the BIOPROTECTUs™ System can help protect your passengers, your employees, your reputation and your fleet investment.

What is the BIOPROTECTUs™ system?

The BIOPROTECTUs™ system includes an array of patented, EPA registered technologies to modify surfaces, providing such surfaces with disinfection and durable long term antimicrobial protection that kills and inhibits the growth of problematic bacteria, fungi, algae, protozoans, viruses and other microorganisms that can exist in many of life's surfaces. In addition, the BIOPROTECTUs™ System offers a hand and skin purifier, laundry treatment and air purifying filters.

Where can the BIOPROTECTUs™ system be used?

The BIOPROTECTUs™ system can be used on a full range of surfaces within a vehicle's interior environment to render them cleaner, safer and healthier, enabling a luxury transport fleet to more confidently control contamination without negatively affecting people, the environment and the areas that have been treated

Did You Know: *“Ride-share vehicles...carry 35,000 times more germs than a toilet seat? The average ride-share vehicle also has about 219 times as many germs as the average taxi.” (Netquote Study, May 2019)*

How are the BIOPROTECTUs™ system of products applied?

The BIOPROTECTUs™ system of products are applied by simply fogging or misting using an electrostatic or ULV sprayer. No wipe or rinse required. Simply fog or spray and allow to dry.

Adopting the BIOPROTECTUs™ system for your luxury multi-passenger vehicles will set you apart as the industry leader in luxury ground transportation hygiene!
