

Bizos Cavallo provides a complete suite of products and solutions that simplify your sanitation strategy.

1

### BREATH CLEANER

Part of a complete facility management strategy is also treating and filtering the air of sub-micro particles. This Innovative design provides key filtering performance while not impacting your HVAC performance.

- Increase HEPA efficiency
- Removes down to 0.1 micron particles that can include viruses that contribute to colds and flu, allergies and asthma caused by mold.

2

### BIOPROTECT™ SYSTEM

Implement a hard & soft surface disinfectant and protection strategy with the proven, long lasting power of the BIOPROTECT™ Systems. Utilizing nano-technology this system is proven effective against various contaminants.

- DISINFECT with SmartTouch® Hospital grade disinfectant
- PROTECT with BIOPROTECT™ RTU or BIOPROTECT™ 500
- SANITIZE with BIOPROTECT™ Hand Sanitizer

3

### EFFICIENT & POWERFUL TOOLS

Powerful tools to decontaminate facilities. Electrostatic spraying technology brings new, 360-degree, touch-less disinfection and sanitizing capabilities to infection control experts, and reaches up to 3X more surfaces in the same amount of time it would take with today's buckets, rags, wipes or other infection control tools.

- Easy to train, complete system designed around optimal disinfecting and sanitizing chemistries.
- Maximize Efficiency with the ability to Disinfect or Sanitize up to 4x greater surface area than traditional cleaning programs.
- Touch-less Disinfection or Sanitation of full rooms

### HVAC and ROOM FILTRATION

For the first time, a filter that allows for HEPA or near-HEPA filtration without the need for HVAC system retrofit. Treat and filter the air of your facility from sub-micron particles and allergens to reduce transmission possibilities.

- Synthetic Media with HEPA efficiency @ .1 Micron
- 100 / 250 / 300 g/m<sup>2</sup> filters available
- Low Static Pressure from unique design

No retrofit to an existing HVAC system is required. Large common areas such as airports, schools, hospitals, cruise ships, physician offices are primary candidates. During a viral respiratory disease outbreak, "we cannot guarantee the air we breathe is clean, so we must assume it is not."

High-efficiency submicron filtration has never been possible with a flat cut pad. The use of a high-efficiency submicron air filter, is now possible, by using a containment filter in conjunction with your HVAC/-floor dryer/air cleaning system. This filter allows for immediate and convenient sub-micron filtration of any volume of air. Scrubbing particles the size of known pathogens from an inhabited area.

\*\*This product is not evaluated by the FDA and is not intended to mitigate nor prevent any disease.

### BIOPROTECT™ SYSTEM

An array of GLP tested, EPA registered and FDA accepted technologies that provide disinfection and long-term antimicrobial surface protection that kills and inhibits the growth of problematic bacteria, viruses and other microorganisms, preventing biofilm proliferation on all applied surfaces.

#### SANITIZE / BIOPROTECT™ HAND SANITIZER

- Alcohol Free Formula
- Effective Against 99.99% Of Bacteria On Hands & Skin
- Provides Up To 6 Hours Of Protection
- Prevents The Transfer Of Illness Causing Germs
- Aloe Vera Infused
- Non-flammable & Non-staining
- Fragrance Free, Paraben Free, Sulfate Free & Dye Free Formula
- Fast Drying, Instantly Effective, Extended Protection For Your Hands
- Increased & Extended Efficacy With Repeated Use

#### DISINFECT / BIOPROTECT™ SMARTTOUCH®

- E.P.A. Registered (82972-1-88566)
- Hospital Grade Disinfectant
- Highly Effective - 99.999% kill (5 Log Reduction)
- 30 second kill time on E.coli and S.aureus
- Corona family efficacy (feline and canine)
- Effective a total of 38 GLP Tested Organisms
- NSF (D-2) Registered - No Rinse Required for Food Contact Surfaces
- No VOC's, Non-Corrosive, Non-Flammable
- Neutral pH

#### PROTECT / BIOPROTECT™ RTU & 500

- Water based, Patented, Bound Antimicrobial Technology
- E.P.A. Registered (87583-3) RTU Formulation
- Non-Leaching
- Persistent and Continuous protection of treated surfaces for up to 90 Days
- Mode of Action - Mechanical Kill
- Works while dry
- Both colorless and odorless
- Keeps surfaces protected between cleanings
- Neutral pH
- Non-Corrosive, Non-Flammable, No VOC's
- Food Contact Surface Preservative
